

# Recep Çil

## Experience

02/21- Now **Full Stack Developer**

[BTCTrader - Istanbul/Turkey](#)

BtcTurk is the 1st cryptocurrency exchange in Turkey and 4th in the world. It is the largest Turkish Lira based cryptocurrency exchange with more than 3 million registered users.

Used Technologies: Angular, .Net Core Framework, RabbitMQ, Xunit, HTML, CSS, JavaScript, MsSql, Git.

04/19- 02/21 **Software Development Expert**

[VeriPark - Istanbul/Turkey](#)

VeriPark is a software house specialised in financial solutions. I'm a part of a web development team to provide specific solutions to clients which include the world's largest and most respected banking, insurance and finance companies.

Used Technologies: Angular, .Net Framework, HTML, CSS, JavaScript, MsSql, Git.

10/18-03/19 **Web Developer Intern**

[Azerion - Amsterdam Area/Netherlands](#)

Azerion is an entertainment company with it's origin in gaming. I experienced how an e-commerce platform works with Dependency Injection, EF Code First approach, .Net Core and WebAPI2. I added new features to the admin panel of Voidu's website and I also worked with the team to develop some new features to Voidu's live API projects which are based on WebAPI2.

08/17-12/17 **Web Developer Intern**

[Big Cat Research - Istanbul/Turkey](#)

Big Cat Research is a startup company which is offering marketing research and consulting.

I developed a website to publish Big Cat Research's statistical research reports. The website is based on ASP.Net MVC. For developing I also used Entity Framework, MsSql Server, Bootstrap, Html5, Css3, and Javascript.
